

WE ARE BACK!

Due to the changes within the Shelter in Place order, all construction is allowed to begin again, and we are so happy about it! We know that there will be a new normal due to the stricter guidelines of the counties, and we are fully prepared to follow them. With the guidance from the Counties, OSHA and the CDC we have improved on our day to day regime and implemented additional steps to aid in the health and safety for all parties involved in our projects.

1 PREVENTION

- * **Training and educating our employees regarding COVID-19** how it spreads, symptoms of it, and the necessity to self-screen.
- * **Practice social distancing protocol** - mandated by the county and printed protocol for each project we work at. *For example-* maintaining a 6 ft distance, shaking hands is prohibited, washing their hands multiple times a day is mandatory, coughing and sneezing into their arm, and disinfection and cleaning of high touch areas, the works stations, and company vehicles, at least two times per day.
- * **PPE (personal protective equipment)** - trained in the correct way to wear the appropriate PPE.

2

BUSINESS CONTINUITY RESPONSIBLY

- * **Provide employees with individual tools** numbered tools to prevent any potential contamination.
- * **Additional hand washing stations** will be available at every project.
- * **Commitment to you that our entire team is versed and educated on COVID-19** – Site Manager training, employee training, and office staff training.

3

NEW PRODUCTION PLAN

- * **New On-Site construction protocols** will be implemented and posted.
- * **Daily Morning Health Screenings-** to confirm that we are only sending out healthy employees to your projects.
- * **Daily job site attendance logs-** to record who and when someone visits our job sites.
- * **Daily disinfections** of the work stations and high touch surfaces twice daily.

We are here to serve you, and we believe doing that in the safest way is the best way. We look forward to working with you again! If you would like to further discuss our safety and health protocols please call us today or email us at: (650) 961-7415 or contact@mcdermaidpainting.com
